Product	Apple Token
Asset code	AAPL
Asset class	equity
Network	ethereum
Minimum order	10.00 USDT
Reference	rwa-asset:apple

This document summarizes the principal risks associated with the product identified above. It is provided for information purposes and does not constitute investment advice. You should read it together with the product terms and the platform Terms of Use before investing.

1. Market Risk

The value of the underlying asset may fluctuate significantly. Tokenized assets can decline in value and you may lose part or all of the amount invested. Past performance does not indicate future results.

2. Liquidity Risk

Secondary liquidity for tokenized assets may be limited. Redemption and trading availability depend on platform operations, market conditions and applicable eligibility rules.

3. Tokenization & Issuer Risk

Tokenized assets depend on the issuer, custodial arrangements and smart contract infrastructure. Issuer default, custody failure or technical faults may adversely affect the value or recoverability of the asset.

4. Regulatory Risk

The regulatory treatment of tokenized assets varies by jurisdiction and may change. Availability of this product may be restricted or suspended in certain regions or for certain account types.

5. Technology Risk

Blockchain networks and related infrastructure may experience congestion, forks, outages or security incidents that could delay or prevent transactions.

6. No Guarantee

This product is not a bank deposit and is not covered by deposit insurance. RWA.LAT does not guarantee returns, liquidity or capital preservation. Target metrics, where shown, are indicative only.
